January 01, 2018

Dear Customer:

This declaration is made regarding the following directives of the European Parliament:

- European Commission Directive 2015/863 relating to Waste Electrical & Electronic Equipment (WEEE Directive)
- European Commission Directive 2015/863 relating to the Restriction of the use of certain Hazardous Substances in electrical & electronic equipment (RoHS Directive)
- European Commission Directive 2015/863 relating to restrictions on the marking and use of certain dangerous substances and preparations (pentabromodiphenyl ether, octabromodiphenyl ether)

Polysi Technologies is a supplier of raw materials to manufacturers of several products and product categories listed within Annexes 1A and 1B of the WEEE Directive. This statement is intended to satisfy the growing number of product-specified enquiries that we receive in relation to our compliance with this Directive. The specified substances listed in Annex II to Directive 2015/863 are not intentionally or knowingly present in the following product(s):

- PolySi Technologies:
P/N: PST-841, PST-5880, PST-576

Furthermore, Polysi Technologies does not utilize ozone-depleting substances (low molecular weight CFCs, HCFCs, HFCs or HCs) as additives or within the manufacturing process.

Article 4.1 of Directive 2002/95/EC specifies the following substances, which should not be present in new electrical and electronic equipment on or after 1 July 2006: lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB) or polybrominated diphenyl ethers (PBDE).

According to Directive 2003/11/EC pentabromodiphenyl ether (PentaBDE) and octabromodiphenyl ether (OctaBDE) may not be placed on the market or used as substances or as constituents of substances or of preparations on or after 15 August 2004.

Element	Limit
Lead and its compounds	0.1% by weight
Mercury and its compounds	0.1% by weight
Cadmium and its compounds	0.01% by weight
Chromium VI and its compounds	0.1% by weight
Polybrominated Biphenyls (PBB)	0.1% by weight
Polybrominated Biphenyl ethers (PBDE)	0.1% by weight

According to Directive 2015/863 Bis(2-ethylhexyl) phthalate (DEHP), Benzyl butyl phthalate (BBP), Dibutyl phthalate (DBP), and Diisobutyl phthalate (DIBP) will be restricted from July 22, 2019 for all electrical and electronic equipment apart from Category 8 and Category 9 that will be effective July 22 ,2021.

The prohibited substances are not normally present in the product(s) mentioned above at Or above the specified guide concentrations *0.1% (by weight) lead, mercury, hexavalent Chromium, PBB, PBDE, PentaBDE or BDE, and 0.01% (by weight) cadmium.

This declaration is based on available information sources from raw material suppliers or quantitative analytical data, where available. Prescribed components are not knowingly present in the supplied raw materials, except as adventitious trace impurities, nor are they added intentionally to the formulation of the above products. Accordingly, the specified components are judged not to be present in the composition so as to materially impact compliance with Directive 2002/95/EC, 2002/96/EC, 2003/11/EC, 2011/65/EU, or 2015/863 respectively.

Best Regards,

Charles Leuth
