REACH COMPLIANCE FOR RESINLAB, LLC

The table below lists all ResinLab commercial products sold within the last 3 years known to contain a chemical included on the REACH Candidate List of Substances of Very High Concern at a concentration of 0.1% w/w or above. ResinLab will review and update the table following the update to the Candidate List every 6 months or as it occurs by ECHA.

If you require confirmation of the presence of an SVHC below the above referenced threshold, please contact your distributor.

All ResinLab products not appearing on the list below manufactured by ResinLab are designated as REACH compliant and meet the requirements for compliance in accordance with the below regulation. This declaration is based on whole or in part on information gathered from raw material suppliers that these chemicals were not added intentionally and are not likely to be present in our products. ResinLab has not performed testing to determine the presence of these substances.

Article 59 of Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) (as amended). This list declares the 219 substances on the Candidate SVHC List, effective July 2021.

ResinLab Part number:	Chemical name:	CAS number:	Substance Level (%)
23A	Bis (2-ethyl(hexyl)phthalate) (DEHP)	117-81-7	8%
65-90109	Octamethylcyclotetrasiloxane	556-67-2	0.13
A50GB0004A	1-methyl-2-pyrrolidone	872-50-4	0.4
A50GB0008A	1-methyl-2-pyrrolidone	872-50-4	0.2
