

## ELEMELT PU608

A one-component polyurethane reactive hot melt adhesive

### FEATURES & BENEFITS

- Low Stringing
- Aggressive Hot Tack
- Excellent Green Strength
- Good Roll Coater Stability
- Good Processability
- Good Open Time

### SUGGESTED USES

Automotive Interior Trim, Filter, and Product Assembly. Good adhesion to plastics, metals, and glass substrates.

TECHNICAL DATA	
Type	Thermoset Polyurethane
Appearance	Black
Shelf Life	270 days
Specific Gravity	1.2 g/cm <sup>3</sup>
Application Temperature	265-325 °F
Viscosity	49,750cps @ 265 °F 18,730cps @ 275 °F 12,880cps @ 300 °F 9,800cps @ 325 °F
Storage Stability	Store in a cool, dry place
Open Time	Up to 4 mins
Packaging	Solid Pack in sealed drums and pails
