

European Union Substances of Very High Concern (SVHC) List for REACH Requirements

With the introduction of the REACH regulation by the European Chemical Agency (ECHA), there is a requirement that importers obtain from their suppliers' documentation as to whether "substances of very high concern (SVHCs)" are contained in the products sold to them.

On November 7, 2024, there was an update to the Candidate List of Substances of Very High Concern.

To the best of our knowledge, the products below do not contain any substances included on the most current version of the Candidate List of Substances of Very High Concern at a concentration of 0.1% by weight or higher.

Bectron® PL 4122-40 E BLF FLZ	EASYPOXY® K-230 Part B Hardener

European Union Substances of Very High Concern (SVHC) List for REACH Requirements

With the introduction of the REACH regulation by the European Chemical Agency (ECHA), there is a requirement that importers obtain from their suppliers' documentation as to whether "substances of very high concern (SVHCs)" are contained in the products sold to them.

On November 7, 2024 there was an update to the Candidate List of Substances of Very High Concern.

To the best of our knowledge, the products below do contain any substances included on the most current version of the Candidate List of Substances of Very High Concern at a concentration of 0.1% by weight or higher.

Product	Substance	CAS	% WW
CONACURE® EA-87 Hardener	4-nonyl phenol (branched)	84852-15-3	24
CONAP® EN-5317 Part B Black Curative	2-(2-hydroxy-5-t-octylphenyl)-Benzotriazole	3147-75-9	0.5
CONAP® EN-5338 Part A Urethane Prepolymer	2-(2-hydroxy-5-t-octylphenyl)-Benzotriazole	3147-75-9	0.3
