Uresolve 411

Urethane Conformal Coating Removal Solvent

Uresolve 411 is a formulated solvent which is used to remove urethane conformal coatings from printed circuit boards and other devices in the electronics industry.

CLEANING APPLICATIONS:

- Urethane conformal coating removal

ADVANTAGES:

- More efficient than acetone, MEK & other solvents
- Formulated to be highly selective
- Available in gel form for spot removal
- Used at room temperature

SPECIFICATIONS:

Specific gravity:	0.87
Boiling point:	149°F (65°C)
Flash point:	64°F (18°C)

MATERIALS REMOVED:

- Urethane conformal coatings

PRODUCT USAGE GUIDELINES (SEE SDS FOR EH&S INFORMATION)

1. Immerse board or device in Uresolve 411 at room temperature.
2. Observe carefully. Once conformal coating has been removed, it is critical to rinse with alcohol prior to rinsing with water.
3. If milky residue remains, dissolving action is not complete and the board or device should be immersed again.
4. For partial/spot removal, apply locally with appropriate application tools.

MATERIAL COMPATIBILITY:

Recommended materials including:

- Most metals
- Teflon®
- Polyethylene & polypropylene

Avoid materials including:

- Aluminum
- Titanium
- PVC
