

SAFETY DATA SHEET CILBOND 49SF

1. Identification			
Product identifier			
Product name	CILBOND 49SF		
Recommended use of the chemical and restrictions on use			
Application	Adhesive.		
Uses advised against	No specific uses advised against are identified.		
Details of the supplier of the	Details of the supplier of the safety data sheet		
Supplier	Kömmerling UK Ltd 217 Walton Summit Road Bamber Bridge Preston, Lancashire PR5 8AQ United Kingdom +44 (0)1772 322888 +44 (0)1772 315853 sds@cilbond.com		
Emergency telephone numb	er		
Emergency telephone	+44(0)7778 029192		
2. Hazard(s) identification			
Classification of the substand	ce or mixture		
Physical hazards	Flam. Liq. 2 - H225		
Health hazards	Skin Irrit. 2 - H315 Eye Irrit. 2A - H319 STOT SE 3 - H336 STOT RE 2 - H373		
Environmental hazards	Not Classified		
Human health	See Section 11 for additional information on health hazards.		
Environmental	The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful effect on the environment.		
Physicochemical	The product is highly flammable. Vapors may form explosive mixtures with air. Vapors may be ignited by a spark, a hot surface or an ember.

Danger

30-60%

CILBOND 49SF

Hazard statements	H225 Highly flammable liquid and vapor. H315 Causes skin irritation. H319 Causes serious eye irritation. H336 May cause drowsiness or dizziness. H373 May cause damage to organs through prolonged or repeated exposure.
Precautionary statements	 P210 Keep away from heat, sparks, open flames and hot surfaces. No smoking. P240 Ground/bond container and receiving equipment. P241 Use explosion-proof electrical equipment. P242 Use only non-sparking tools. P243 Take precautionary measures against static discharge. P260 Do not breathe vapor/spray. P261 Avoid breathing vapor/spray. P264 Wash contaminated skin thoroughly after handling. P271 Use only outdoors or in a well-ventilated area. P280 Wear protective gloves/protective clothing/eye protection/face protection. P302+P352 If on skin: Wash with plenty of water. P303+P361+P353 If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. P304+P340 If inhaled: Remove person to fresh air and keep comfortable for breathing. P312 Call a poison center/doctor if you feel unwell. P314 Get medical advice/attention if you feel unwell. P314 Get medical advice/attention if you feel unwell. P332+P313 If skin irritation occurs: Get medical advice/attention. P332+P313 If skin irritation persists: Get medical advice/attention. P362+P364 Take off contaminated clothing and wash it before reuse. P370+P378 In case of fire: Use foam, carbon dioxide, dry powder or water fog to extinguish. P403+P235 Store in a well-ventilated place. Keep cool. P403+P235 Store in a well-ventilated place. Keep cool. P405 Store locked up. P501 Dispose of contents/container in accordance with national regulations.
Contains Other becorde	butanone, xylene

Other hazards

This product does not contain any substances classified as PBT or vPvB.

3. Composition/information on ingredients

Mixtures

butanone

CAS number: 78-93-3

Classification

Flam. Liq. 2 - H225 Eye Irrit. 2 - H319 STOT SE 3 - H336

xylene	10-30%
CAS number: 1330-20-7	
Classification	
Flam. Liq. 3 - H226	
Acute Tox. 4 - H312	
Acute Tox. 4 - H332	
Skin Irrit. 2 - H315	
Eye Irrit. 2A - H319	
STOT SE 3 - H335	
STOT RE 2 - H373	
Asp. Tox. 1 - H304	

4. First-aid measures	
Description of first aid meas	sures
General information	Move affected person to fresh air at once. Get medical attention if any discomfort continues.
Inhalation	Move affected person to fresh air at once. For breathing difficulties, oxygen may be necessary. If breathing stops, provide artificial respiration. Keep affected person warm and at rest. Get medical attention.
Ingestion	Do not induce vomiting. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Remove affected person from source of contamination. Rinse mouth thoroughly with water. Get medical attention. Keep affected person away from heat, sparks and flames.
Skin Contact	Remove affected person from source of contamination. Wash skin thoroughly with soap and water. Get medical attention if irritation persists after washing.
Eye contact	Remove affected person from source of contamination. Remove any contact lenses and open eyelids wide apart. Rinse with water. Continue to rinse for at least 15 minutes and get medical attention. Consult a physician for specific advice. Show this Safety Data Sheet to the medical personnel.
Protection of first aiders	First aid personnel should wear appropriate protective equipment during any rescue.
Most important symptoms a	and effects, both acute and delayed
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
Inhalation	Vapors may cause headache, fatigue, dizziness and nausea. Vapours may cause drowsiness and dizziness.
Ingestion	May cause stomach pain or vomiting.
Skin contact	Prolonged or repeated exposure may cause severe irritation.
Eye contact	Causes eye irritation.
Indication of immediate me	dical attention and special treatment needed
Notes for the doctor	Treat symptomatically.
5.Fire-fighting measures	

Extinguishing media

Suitable extinguishing media	Extinguish with the following media: Foam. Dry chemicals, sand, dolomite etc.	
Unsuitable extinguishing media	Water.	
Special hazards arising from the	he substance or mixture	
Flammability Class	No Uniform Fire Code noted.	
Specific hazards	Vapors are heavier than air and may spread near ground and travel a considerable distance to a source of ignition and flash back. Vapors may form explosive mixtures with air. Vapors may be ignited by a spark, a hot surface or an ember.	
Hazardous combustion products	Toxic gases or vapors. Carbon monoxide (CO). Carbon dioxide (CO2). Nitrous gases (NOx).	
Advice for firefighters		
Protective actions during firefighting	Move containers from fire area if it can be done without risk. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. Contain and collect extinguishing water. If risk of water pollution occurs, notify appropriate authorities.	
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Wear chemical protective suit.	
6. Accidental release measure	15	
Personal precautions, protecti	ve equipment and emergency procedures	
Personal precautions	Wear protective clothing as described in Section 8 of this safety data sheet.	
Environmental precautions		
Environmental precautions	Do not discharge into drains or watercourses or onto the ground. Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body.	
Methods and material for cont	ainment and cleaning up	
Methods for cleaning up	Eliminate all ignition sources if safe to do so. No smoking, sparks, flames or other sources of ignition near spillage. Stop leak if safe to do so. If leakage cannot be stopped, evacuate area. Provide adequate ventilation. Cover large spillages with alcohol-resistant foam. Contain spillage with sand, earth or other suitable non-combustible material. Collect spillage for reclamation or disposal in sealed containers via a licensed waste contractor. Containers with collected spillage must be properly labeled with correct contents and hazard symbol.	
Reference to other sections	For waste disposal, see Section 13. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards.	
7. Handling and storage		
Precautions for safe handling		
Usage precautions	Static electricity and formation of sparks must be prevented. Keep away from heat, sparks and open flame. Use explosion-proof electrical, ventilating and lighting equipment. Avoid spilling. Avoid breathing vapours. In case of insufficient ventilation, wear suitable respiratory equipment.	
Advice on general occupational hygiene	Do not eat, drink or smoke when using this product. Provide eyewash station. Provide shower facilities near the workplace. Wash promptly with soap and water if skin becomes contaminated.	

Conditions for safe storage, including any incompatibilities

Storage precautions	Store in tightly-closed, original container in a well-ventilated place. Stir Thoroughly before and during use. Refer to SDS.
Storage class	Flammable liquid storage.
Specific end uses(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.

8. Exposure Controls/personal protection

Control parameters

Occupational exposure limits

butanone

Long-term exposure limit (8-hour TWA): ACGIH 200 ppm 590 mg/m³ Short-term exposure limit (15-minute): ACGIH 300 ppm 885 mg/m³ Long-term exposure limit (8-hour TWA): OSHA 200 ppm 590 mg/m³

xylene

Long-term exposure limit (8-hour TWA): OSHA 100 ppm 435 mg/m³ Long-term exposure limit (8-hour TWA): ACGIH 100 ppm 434 mg/m³ Short-term exposure limit (15-minute): ACGIH 150 ppm 651 mg/m³ A4

ACGIH = American Conference of Governmental Industrial Hygienists. OSHA = Occupational Safety and Health Administration. A4 = Not Classifiable as a Human Carcinogen.

butanone (CAS: 78-93-3)

Immediate danger to life 3000 ppm and health

Exposure controls

Appropriate engineering controls

Eye/face protection

Hand protection

Other skin and body protection

Hygiene measures

Provide adequate general and local exhaust ventilation. Ensure that the direction of airflow is clearly away from the worker. Observe any occupational exposure limits for the product or ingredients. Avoid inhalation of vapors. Ensure operatives are trained to minimize exposure.

Wear chemical splash goggles.

It is recommended that gloves are made of the following material: Rubber (natural, latex). Polyvinyl chloride (PVC). Neoprene. To protect hands from chemicals, gloves should comply with OSHA 1910.138 and be demonstrated to be impervious to the chemical and resist degradation.

Wear appropriate clothing to prevent any possibility of liquid contact and repeated or prolonged vapor contact.

Do not smoke in work area. Contaminated clothing should be placed in a closed container for disposal or decontamination. Wash at the end of each work shift and before eating, smoking and using the toilet. Wash hands and any other contaminated areas of the body with soap and water before leaving the work site.

Respiratory protection	Respiratory protection complying with an approved standard should be worn if a risk assessment indicates inhalation of contaminants is possible. When spraying, wear a suitable supplied-air respirator. If ventilation is inadequate, suitable respiratory protection must be worn. Wear a respirator fitted with the following cartridge: Gas filter, type A2. Check that the respirator fits tightly and the filter is changed regularly.
Environmental exposure controls	Store in a demarcated bunded area to prevent release to drains and/or watercourses. Residues and empty containers should be taken care of as hazardous waste according to local and national provisions. Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

9. Physical and Chemical Properties

Information on basic physical and chemical properties		
Appearance	Volatile liquid.	
Color	Red.	
Odor	Characteristic. Solvent.	
Melting point	<-50°C	
Initial boiling point and range	>78°C @ 760 mm Hg	
Flash point	-2°C CC (Closed cup).	
Evaporation rate	0.6 (butyl acetate = 1)	
Upper/lower flammability or explosive limits	Lower flammable/explosive limit: 1.8 LFL based on Butanone, CAS:78.93.3 Upper flammable/explosive limit: 10.1 UFL based on Butanone, CAS:78-93-3	
Vapour pressure	25 mm Hg @ 25°C	
Vapour density	(Air=1) >1.0	
Relative density	0.90-0.95 @ 25°C	
Solubility(ies)	Miscible with the following materials: Organic solvents.	
Auto-ignition temperature	>250°C	
Other information	None.	
Refractive index	Not known.	
Volatile organic compound	No information available.	
10. Stability and reactivity		
Reactivity	The reactivity data for this product will be typical of those for the following class of materials: Hydrocarbons. Flammable/combustible materials.	
Stability	Stable at normal ambient temperatures and when used as recommended.	
Possibility of hazardous reactions	None known.	
Conditions to avoid	Avoid heat.	
Materials to avoid	Avoid contact with strong oxidizing agents. Avoid contact with strong reducing agents.	

Hazardous decomposition products	Heating may generate flammable vapors. Heating may generate the following products: Carbon monoxide (CO). Carbon dioxide (CO2). Nitrous gases (NOx).
11. Toxicological information	
Information on toxicological ef	fects
Toxicological effects	No information available.
Acute toxicity - dermal	
ATE dermal (mg/kg)	9,259.26
Acute toxicity - inhalation ATE inhalation (gases ppm)	37,878.79
Specific target organ toxicity - Target organs	Respiratory system, lungs Mucous membranes
Specific target organ toxicity -	repeated exposure
Target organs	Respiratory system, lungs Mucous membranes
Aspiration hazard Aspiration hazard	May be harmful if swallowed and enters airways.
General information	Extensive use of the product in areas with inadequate ventilation may result in the accumulation of hazardous vapor concentrations.
Inhalation	Harmful by inhalation. Gas or vapor in high concentrations may irritate the respiratory system. Vapors may cause headache, fatigue, dizziness and nausea.
Ingestion	May cause internal injury. Nausea, vomiting.
Skin Contact	Product has a defatting effect on skin. Repeated exposure may cause skin dryness or cracking. Eczema/contact dermatitis.
Eye contact	Irritation of eyes and mucous membranes.
Acute and chronic health hazards	This product may cause skin and eye irritation. Prolonged inhalation of high concentrations may damage respiratory system.
Route of entry	Inhalation Ingestion Skin absorption Skin and/or eye contact
Target Organs	Respiratory system, lungs Mucous membranes
Medical Symptoms	Symptoms following overexposure to vapor may include the following: Coughing, chest tightness, feeling of chest pressure. Difficulty in breathing. Dizziness. Symptoms following overexposure may include the following: Dry skin.
12. Ecological Information	
Ecotoxicity	The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful effect on the environment.
Persistence and degradability Persistence and degradability	No data available.
Bioaccumulative potential Bio-Accumulative Potential	No data available on bioaccumulation.

Mobility in soil	
Mobility	The product contains volatile organic compounds (VOCs) which will evaporate easily from all surfaces.
Results of PBT and vPvB asse	essment
Results of PBT and vPvB assessment	This product does not contain any substances classified as PBT or vPvB.
Other adverse effects	
Other adverse effects	Not known.
13. Disposal considerations	
Waste treatment methods	
General information	The generation of waste should be minimized or avoided wherever possible. Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.
Disposal methods	Dispose of contents/container in accordance with local regulations.
14. Transport information	
General	Wear protective clothing as described in Section 8 of this safety data sheet.
Road transport notes	Avoid releasing into the environment.
Sea transport notes	Do not release into the environment.
